

Due to the proposal submission completion date being changed, the team re-planned their tasks and put them in different Sprints than originally planned.

Item #	User Story	Priority	Pool 1 or 2	Estimate	Points for Velocity	Sprint	Assigned To	Status		
1	As a person who has been prescribed a drug, I want to know the common reactions for a drug I have been prescribed so that I am prepared for possible complications.									
1.1	The system shall allow the user to choose a drug from a predefined list.	High	4	Small	4	4	Front-End Web Developer	Complete	Sprint 1 velocity	7
1.1.1	Define the list of drugs to be included in the drop-down.	High	4	Small	4	4	End User	Complete	Sprint 2 velocity	17
1.1.2	End to end tests need to be created to verify the functionality of predefined list of Drugs	High	4	Small	4	2	Front-End Web Developer	Complete	Sprint 3 velocity	15
1.1.3	Apply styling from user feedback	High	1	Medium	5	4	Front End Web Developer		Sprint 4 planned	10
	The system shall allow the user to put in the following information: — Age (free-form text) — Sex (radio button Male/Female) — Male — Female								Sprint 5 planned	6
4.2	— Weight (range)	Medium	4	Medium	5	4	Front-End Web Developer	Complete		
1.2.1	End to end tests needs to ensure the ranges defined in 1.2 are correct and deliver expected results	High	1	Medium			Front End Web Developer	No longer applicable since users didn't like the ranges		
4.3	The system shall display the possible adverse events in both a tabular and graphical view.	High	4	Medium	5	3	Front-End Web Developer	Complete		
4.3.4	Show a count of the top 20 reactions for the input, ordered by largest count.	High	4	Medium	5	2	Front-End Web Developer	Complete		
4.3.2	End to end tests need to ensure the correct data is displayed for possible adverse events in both tabular and graphical views	High	4	Medium	5	3	Front-End Web Developer	Complete		
1.4	The system shall allow the user to click on a link in the tabular view to display relative outcomes related to the reaction.	Medium	1	Medium	5	4	Front End Web Developer			
4.4.4	End to end tests need to ensure tabular data displays expected information	Medium	4	Small	4	2	Front-End Web Developer	Complete		
4.5	The system shall allow the user to click on the reaction in the graphical view to see the outcomes related to the reaction.	High	4	Large	40	2	Front-End Web Developer	Complete		
4.6	The system shall show the following reaction outcomes: e.g. recovered, fatal, unknown, etc.	High	4	Medium	5	3	Front-End Web Developer	Complete		
							Product Manager, Interaction Designer/User Researcher/Usability Tester, Visual Designer, End Users			
1.7	Manual testing	High	1 & 2	Medium	5	5				
1.8	Add alt-text	High	1	Small	1	5	Front End Web Developer			

BACKLOG

Adjust results based on weight or treatment duration changes to see how results change
As a person who has been prescribed a drug, I want to know the relative occurrence of seriousness per drug so that I can understand the potential problems.

As a prescription drug user, I want to be able to find out if a new medication will have adverse reactions to medications I'm currently taking to help me make a decision about whether to take it.
