Check My Meds Site

Style Guide and Pattern Library

Think of these as guidelines. If you stray from the style guide it's the equivalent of wearing your shoes on the wrong feet: they're still shoes; they're basically where they're supposed to be, but it just feels wrong.

Framework

A responsive, proportional, nestable, accessible, fast, user-friendly and mobile-first 6-column grid framework.

1. Responsive
   - Flexible grid defined in percentages
   - Flexible media that will proportionaly scale down when larger than the parent tag
2. Proportional
   - The sizes are based on commonly used proportions: 1/1, ½, 2/3, 1/3, ¼, etc.
3. Nestable
   - Grids can be infinitely nested within other grids in order to create more complex layouts.
4. Accessible
   - Application is open and accessible to all people, regardless of physical or technological readiness.
5. Fast
   - Load times are under 3 seconds.
6. User-Friendly
   - Application is designed using human-centered design principles and user feedback, iterating on the design at each step in the production process.
7. Mobile-First
   - Only when the viewport width is above 768px does the grid take affect, otherwise it remains collapsed vertically.

Pattern Library

The Check My Meds site uses the Bootstrap Pattern Library as a foundation on which the site is built. Please find the Bootstrap Pattern Library here: http://getbootstrap.com/css/#type

Headings

Standard Heading

Font: Roboto

Typeface: Bold

Welcome Heading

Font: Lobster

Typeface: Bold

Paragraphs

We use the light, friendly, and high fluency Open Sans. The default body text is 15px. For optimum reading length, the paragraph-width is capped at 635px.
